

There is a Difference In the Way the Liberty Rides and Drives

E. S. Partridge

We believe we can say with propriety that the Liberty comes to you here in New York with a double endorsement.

Its own remarkable reputation with the New York public for deep-seated quality is the strongest sort of an assurance of value.

We believe we may say in addition that this house is held in some esteem by reason of its long handling of none but high class cars.

We pride ourselves on the fact that the great majority of our clients have always accepted our recommendations without reservation.

Never in our history have we been able to recommend any car as unreservedly as we recommend the Liberty.

You have doubtless heard and read many times that there is a distinct difference in the way the Liberty rides and drives, which unmistakably proclaims its high character.

This is a literal and an actual truth which we are demonstrating every day to old and new friends.

For nearly three years, the Liberty has been a permanent part of this business. In all that time it has not failed, in a single instance that we know of to fulfill to the utmost the expectations of its owners.

We ask you to hold us to the promise that a performance demonstration of the Liberty will satisfy you, in one-half hour's time that it is the truly fine car we say it is.
